Legislature.

Charleston, W. Va.: Feb. 21.—The report of the joint legislative investigating committee which probed into alleged corruption charges of the Standard Oil company was adopted by the house of delegates today. Two reports were made, one by the majority members and the other by the minority members. An effort to substitute the latter for the majority report was defeated.

The charges referred to were contained in a letter of United States Marshal Ellott to John Worthington, a Standard Oil temploye. The majority members found that the letter was written by Elliott, and that the charges contained therein were untrue, and the legislators are vindicated and exonerated. The minority report states that the conspiracy alleged was uninvestigated and the majority of the committee rejected the testimony tending to prove a political conspiracy. The minority report continues:

conspiracy. The minority report continues:

"We further find that the speaker of the house of delegates was directly interested in the legislation which was the principal subject of inquiry, and in being so interested, he resisted the passage of the bill: that the secretary of state participated in the resistance to the extent of procuring their recommittal; that it was represented to the said secretary of state by the speaker and others that if they were recommitted they would be defeated. The conduct of the speaker in this behalf is shown to have been most indiscreet, as is also that of the secretary of the state."

Buy for future needs as well as for the present. It's like buying gold dollars for 50c.

EACH -

Germ troubles are so unnecessary--so easily cured; it is wrong to let them continue. Won't you try Liquozone--free?

What Liquozone Is.

Liquozone is a product now used the world over in the treatment of germ disease. In millions of homes it has done, and is doing, what medicine can-

not do.

The virtues of Liquozone are derived solely from gas—largely oxygen gas. No drugs, no alcohol—nothing but gas enters into it. The process of making takes fourteen days, and requires immense apparatus. Then we get one cubic inch of Liquozone for each 1,250 cubic inches of gas used. This process has, for more than twenty years, been the constant subject of scientific and chemical research.

The result is a germicide so certain

chemical research.

The result is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. Yet it is not only harmless, but remarkably helpful. The effective of the second seco fects are exhibitanting, vitalizing, purificities. Even a well person feels its instant benefit. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is life to an animal but deadly to vegetal matter.

There lies the great value of Liquo-

If you are sick with a germ trouble, zone. It is the only way known to kill please let us show you how easy it is to get well. Let us show you at our expense; let us buy the first bottle for you.

This offer itself should convince you while Liquozone is almost helpless in any germ disease, while Liquozone is almost certain. We while Liquozone is almost certain. We pense; let us buy the first bottle for you.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle, and give it to you, if there was any doubt of results. You want those results—you want to be well. Then be fair with yourself; let us show you the way.

When the first bottle for is a poison, and it cannot be taken internally. For that reason, medicine is almost helpless in any germ disease, while Liquozone is almost certain. We proved this fact for years, through physicians and hospitals, in thousands of the most difficult cases obtainable. Then we paid \$100,000 for the American rights—the highest price ever paid for any discovery used in the cure of sick-ness.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs and such results are indirect and uncertain. Liquozone attacks th germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.
